SUBJECT INDEX TO VOLUME 39

PAGE

Adsorption of phosphorus by four Saskatchewan soils 64
Alberta, A study of some profiles from major soil zones in Saskatchewan and 165
Alberta soils, Assessing nitrogen requirements of some 120
Alfalfa of phosphorus from twelve different carriers, The availability to 54
Alkaline permanganate oxidation of the organic matter of the A_o and B_{21} horizons of a podzol 44
Alluvial deposits in the Northwest Territories, Chemical, morphological characteristics of a chronosequence of soils on 32
Bearpaw formation, A mineralogical study of some core samples from the 178
Breton plot soils, Effect of cropping systems and fertilizers on mean weight-diameter of aggregates of 151
British Columbia soils, The occurrence of chlorite and vermiculite in the clay fraction of three 244
Brookston clay soil, Effects of tillage traffic on certain physical properties and crop yield on 98
Burning on the soil in the timber range area of Lac le Jeune, British Columbia, The influence of:
I Physical properties 1
II Chemical properties 6
Calcite and dolomite in soils and limestones, Quantitative manometric determination of 197
Calibration curves of gypsum moisture blocks, Influence of bulk density and field structure of soil on the 12
Caribou Catena in New Brunswick, Morphology and genesis of soils of 222
Clay fraction of three British Columbia soils, The occurrence of chlorite and vermiculite in the 244
Clay-humus complexes of a chernozemic and a podzol soil, Study of the 136
Core samples from the Bearpaw formation, A mineralogical study of some 178
Cropping systems and fertilizers on mean weight-diameter of aggregates of Breton plot soils, Effect of 151
Dolomite in soils and limestones, Quantitative manometric determination of calcite and 197
Drainage following an irrigation, Rate of soil:
I Nature of soil drainage curves 107
Fertilizer response by the potato, Relation of soil test values to:
I Nitrate production and crop yield 144
Fox Sandy Loam, Effects of thiourea, ethyl urethane and some dithiocarbamate fungicides on nitrification in 235
Frost action on structure of Haldimand clay, Effect of 103
Fungicides on nitrification in Fox Sandy Loam, Effects of thiourea, ethyl urethane and some dithiocarbamate 235
Germination, Effects of fertilizers and osmotic pressure on 157
Haldimand clay treated with four soil additives, Note on the aggregate-size distribution and aggregate stability in 252
8-hydroxy quinoline (oxine) in the extraction of soil organic phosphorus, The uses of 20
In-situ technique for the quantitative determination of fertilizer phosphorus in growing plants, An 205

PAGE

Lac le Jeune, British Columbia, The influence of burning on the soil in the timber range area of:
I Physical properties ... 1
II Chemical properties ... 6
Manometric determination of calcite and dolomite in soils and limestones, Quantitive ... 197
New Brunswick, Morphology and genesis of soils of Caribou Catena in ... 222
Nitrification in Fox Sandy Loam, Effects of thiourea, ethyl urethane and some dithiocarbamate fungicides on ... 235
Nitrogen requirements of some Alberta soils, Assessing ... 120
Northwest Territories, Chemical, morphological characteristics of a chronosequence of soils on alluvial deposits in the ... 32
Osmotic pressure on germination, Effects of fertilizers and ... 157
Peltier effect and its use for determining relative activity of soil water, The ... 76
Phosphorus from twelve different carriers, The availability to alfalfa of ... 54
Phosphorus in growing plants, An in-situ technique for the quantitative determination of fertilizer ... 205
Podzol soil, The penetration of radioactive superphosphate into a ... 215
Potassium in soils and degree of saturation in relation to tomato yields, Exchangeable and water-soluble ... 129
Potato, Relation of soil test values to fertilizer response by the:
I Nitrate production and crop yield ... 144
Profiles from major soil zones in Saskatchewan and Alberta, A study of some ... 165
Radioactive superphosphate into a podzol soil, The penetration of ... 215
Sand in southern Ontario, A study of the mineralogical composition of ... 185
Saskatchewan and Alberta, A study of some profiles from major soil zones in ... 165
Saskatchewan soils, Adsorption of phosphorus by four ... 64
Southern Ontario, A study of the mineralogical composition of sand in ... 185
Tillage traffic on certain physical properties and crop yield on Brookston clay soil, Effects of ... 98
Tomato yields, Exchangeable and water-soluble potassium in soils and degree of saturation in relation to ... 129
Waste sulphite liquor, Studies with:
I Effects of waste sulphite liquor on crop yields and soil properties ... 87
II Waste sulphite liquor as a soil aggregating agent ... 92
Water in soil, Horizontal movement of ... 27
Weight-diameter of aggregates of Breton plot soils, Effect of cropping systems and fertilizers on mean ... 151
